## EXPERIENCE

### CTO & Co-Founder

#### Laevitas.ch

08/2020 - Present

- Led as Project Leader, CTO, and Co-Founder, driving the conceptualization, development, and strategic direction of Laevitas.
- Defined and executed the company's technological strategy, ensuring efficient, profitable, and secure utilization of resources.
- Utilized a tech stack encompassing NodeJS, NestJS, Python, Angular, Git, MongoDB, Postgres, MySQL, AWS services (Aurora, EC2, Lambda, Cost, EKS, RDS), Google Service (Functions, k8s, SQL), Redis, Docker, Jenkins, among others.
- Received and addressed security vulnerabilities identified by security researchers, implementing necessary fixes and enhancements.
- Implemented security measures throughout the project, including JWT authentication, reCAPTCHA backend, session management, rate limiting, and more.
- Utilized Cloudflare to protect the website and monitor malicious requests, enhancing overall security posture. Acted as Scrum Master, orchestrating Agile practices and facilitating team collaboration for streamlined project delivery.
- Proficiently managed project workflows using Jira and fostered knowledge sharing through Confluence.
- Led a multidisciplinary team in developing and deploying innovative solutions for analysis and mathematical modeling in crypto-asset derivatives markets
- Led a multidisciplinary team in developing and deploying innovative solutions for analysis and mathematical modeling in crypto-asset derivatives markets

### Project leader

#### Growapp.digital

04/2020 - 2022

- Growapp.digital is a leading provider of marketing software-as-a-service platforms specializing in analytics and content planning for social media marketing across various platforms including Facebook, Instagram, Twitter, and LinkedIn.
- Directed projects as a Project Leader at Growapp.digital, overseeing the development and implementation of innovative marketing software solutions.
- Played a key role in formulating and executing strategic initiatives to drive the company's growth and market presence.
- Utilized a diverse tech stack including Spring Boot, NodeJS, Python, Angular, MongoDB, Postgres, Docker, and Jenkins to develop scalable and efficient software solutions.
- Collaborated closely with stakeholders to gather requirements, define project scope, and prioritize features to meet business objectives.
- Implemented Agile methodologies to streamline project workflows, enhance team collaboration, and foster continuous improvement.
- Employed Docker and Jenkins for automated deployment and continuous integration, optimizing the software development lifecycle.

Spring Boot, NodeJS, Python, Angular, MongoDB, Postgres, Postgres, Docker, Jenkins

## SUMMARY

Dynamic and results-driven Project Leader and Co-Founder with a proven track record of spearheading technological initiatives to drive business growth.

Proficient in developing and executing comprehensive strategies to leverage technological resources **efficiently, profitably, and securely**.

Adept at **evaluating, implementing, and optimizing** systems and infrastructure to enhance organizational effectiveness

## SKILLS

Agile    Android    Angular    Aws

AWS Lambda    AWS Services

Cloudflare    Confluence

Sprint planning    CI/CD    Docker

Ec2    Git    Java    Jee    Jenkins

Jira    Jwt    K8s    Kinesis

Lambda    Mathematics    MongoDB

MySQL    NestJS    NodeJS

OpenCV    Php    Postgres

Python

## ACHIEVEMENTS

### Over 1.5B Rows

Handled over 1.5 Billion rows of SQL data (Optimizing and serving the client through api)

### +400M Rows / + 100 times Series charts

Implementing data based timeseries storing System to serve dashboard with auto granularity with good response time.

### +150 Concurrent ETL Workers

Implementing AWS lambdas as ETL workers.

## EXPERIENCE

---

### Web developer

#### Surecrete construction

📅 02/2019 - 05/2020

- Web developer - surecrete construction
  - Sure-Bid.com is a platform designed to connect subcontractors with real construction projects, facilitating discussions and bidding processes
  - As a Full Stack Developer, I played a crucial role in developing and hosting the application
- 

### Web developer

#### Efrica ecommerce

📅 05/2018 - 12/2018

- EFRICA ECOMMERCE African E-commerce website dedicated for the artisans around africa to promote and sell their product.
  - PHP, Symfony, MySql
- 

## EDUCATION

---

### Master's degree

#### Esprit university

📅 01/2017 - 01/2020 📍 Tunisia

- Computer Science - Web Development Track
- 

### BACHELOR DEGREE

#### FACULTY OF SCIENCE OF TUNIS - FST

📅 01/2014 - 01/2017 📍 Tunisia

- Computer Science
- 

### Tunisian baccalaureate diploma

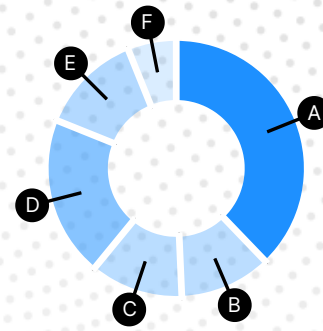

#### High school of beni khalled

📅 01/2012 - 12/2012 📍 Tunisia

- Computer Science, with grade "Good"

## MY TIME

---

- Ⓐ Test & Development
- Ⓑ PR & Code Review
- Ⓒ Documentation
- Ⓓ Scrum management
- Ⓔ Meetings
- Ⓕ R&D

## PASSIONS

---
